OLDROYD INTEC

MATERIAL HANDLING TECHNOLOGY

**OLDROYD INTEC LTD** is a specialist engineering company that continues to expand its portfolio of products and services across the aggregates industry.

**WE PRIDE** ourselves on our technical knowledge, experience and commitment to providing a world class service which is reflected in the quality of our equipment. Our team provides bespoke engineering design solutions and the manufacture of your products to meet the needs of your business.

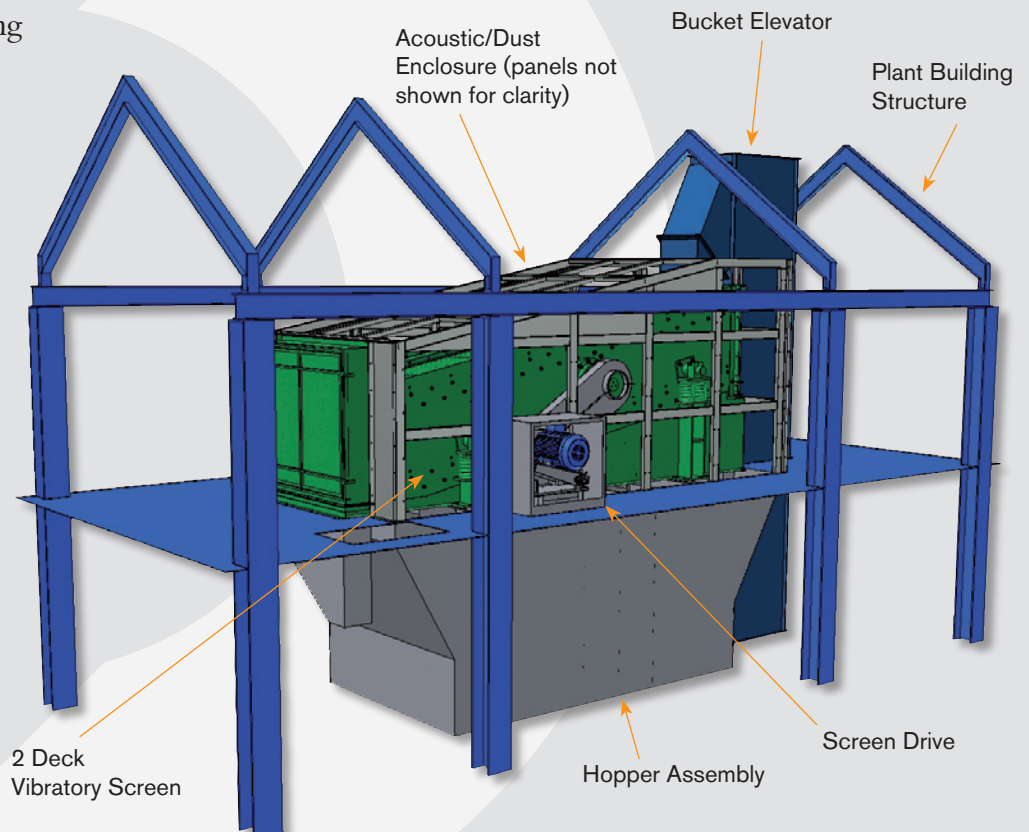

**WE WILL** collaborate closely with you to ensure that your project targets for cost, time, operational efficiency and quality of quarry plant are successfully accomplished, allowing you to concentrate on the operation of your quarry. If you have any screening plant enquiries that you would like us to quote for contact Chris Oldroyd on +44 (0) 1226 381850 or e-mail at [chris.oldroyd@oldroydintec.com](mailto:chris.oldroyd@oldroydintec.com) and see how competitive we are.

## VIBRATORY Screens

Our inclined and horizontal screens are supplied to a standard design and will incorporate your requirements;

- Spray Bars for wet screening
- Steel Mesh, Rubber or Polyurethane Screen Cloths, sized as per grading requirements
- Multiple deck designed as per grading requirements, 1 to 4 decks
- Belt driven eccentric counter-weighted shaft assembly to give screen amplitude and acceleration, designed for material density, moisture content and throughput.
- Synthetic Oil Systems for high temperature applications

# Quarry Plant Solutions

OLDROYD INTEC

MATERIAL HANDLING TECHNOLOGY

**OUR PRODUCTS** are based on over 30 years of engineering design and manufacture experience.

**WE HAVE** the engineering and manufacturing capacity to offer supply of individual products to a standard design, through to full turnkey design, manufacture, install and commission of entire plant projects.

**WE USE** the very latest 3D engineering design technology and ensure that we employ the most current, effective and innovative design. Manufacturing is of the highest quality and tested to ensure the products meet the rigorous demands of the extreme environments they operate in.

**WE ENGINEER** our products to be durable and hence have a long lifecycle making them low maintenance, operationally efficient, safe, environmentally sound and cost effective so that you can realise your return on investment.

**WE BACK** all our products with a 12 month guarantee and an agreed maintenance and spares service.

## TURNKEY Quarry Plant

We will design, manufacture and install your entire screening plant, aside from crushers which will be purchased from trusted and agreed suppliers. Our manufacture will cover all the following items;

- Vibratory Screens as required (see overleaf).
- Grizzly Feeders for removing under-sized rocks prior to primary crushing.
- Belt Conveying Systems including Radials, Stackers and Overland. Designed and built to specification ensuring all aspects of control, safety, maintenance and efficiency are catered for.
- Speciality Conveying Systems including Troughed, Slat and Sidewall Belt Conveyers, Screw Conveyors, Apron Feeders, Bucket Elevators and Rotary Valves.
- All Structural Steelwork and Platforms
- Hoppers
- Sound and Dust Enclosures
- Control Systems.
